

Wedding Services

As one of the biggest days of your life, you want it to go without fault and we will make sure that you are never disappointed. We provide a range of displays and services to make sure that your day is just the way you imagined from an eagle escort for bride or groom to ring delivery by owl or hawk and flying demonstrations to keep you guests entertained while you relax for your photographs.

- **Interactive Flying Display**

Once the ceremony is done and the photographer requires the bride and groom for their photographs, it is nice to know that your friends and relatives are being looked after and entertained. An interactive bird of prey flying display is an excellent way of making sure they enjoy themselves

leaving you free to relax

during your photo shoot. Of course you wouldn't wish to be left out so enough time is spent to allow for the bride and groom to join in and have some extra photographs showing them flying and holding the birds.

- **Wedding Ring delivery**

In recent years having the wedding rings delivered by a bird of prey has become increasingly popular. A variety of birds can be used for this but the most popular is the barn owl because of its natural beauty, its white

colouring and its silent flight. The rings are attached to the bird using soft ribbon and can be flown to the best man, the groom, the bride or brides maid or whoever you wish. Once the rings have been delivered, the bird can be held or flown back to the falconer.
